PROFESSIONAL SUMMARY

Java Backend Developer specializing in Spring Boot, REST APIs, MySQL, and Spring Security. Experienced in designing scalable backend applications using layered architecture, JWT authentication, JPA/Hibernate, and Git. Passionate about writing clean, maintainable, production-ready backend systems.

TECHNICAL SKILLS

Languages: Java, SQL, HTML, CSS, JavaScript

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, React

Developer Tools: Git, GitHub, Maven, Postman, Docker, MySQL Workbench, IntelliJ IDEA

Libraries & Other: JUnit 5, Mockito, Apache Kafka, MongoDB, AWS, AI

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

Uttaranchal University, Dehradun, Uttarakhand

Class XII (CBSE Board)

2023

Kendriya Vidyalaya, RK Puram, New Delhi — 75%

WORK EXPERIENCE

Freelance Web Developer — Rajeev Gandhi Convent School

Feb 2026 – Present

Spring Boot, MySQL, JavaScript, GitHub, React

- Built a school information website (rajeevgandhischool.in) with a Spring Boot backend and MySQL database, enabling online admission enquiry form submission
- Developed a REST API endpoint to receive and persist student enquiry data, reducing manual tracking effort for school administration
- Deployed the application and managed domain configuration for the live production site on Railway.io

PROJECTS

HireHub

Jan 2026 – Mar 2026

Spring Boot, Spring MVC, Spring Data JPA, MySQL, JWT, REST API

- Built a REST API backend with JWT-based auth and role-based access (3 roles: Candidate, Employer, Admin) across 4+ core entities (User, Candidate Profile, Employer Profile, Job Posting)
- Designed normalized MySQL schema with JPA/Hibernate; implemented DTO pattern and centralized exception handling via `@RestControllerAdvice`
- Followed a structured Git branching workflow (feature branches → pull requests) to keep the codebase stable and review-ready throughout development

github.com/Gulshan-Chouksey/hirehub

AcademiaX

Oct 2025 – Dec 2025

Java, Spring Boot, HTML, Spring Data JPA, MySQL

- Developed a RESTful web application to manage 1000+ student records, course enrolments, and academic data with CRUD operations across 3+ core entities (Student, Course, Enrolment)
- Implemented role-based access control (Admin, Student, Faculty) using secure authentication and authorization mechanisms
- Built and tested 20+ REST endpoints, ensuring data validation, exception handling, and API reliability using JUnit and Postman
